

Profile Dr. Zlatko Bodrožić

Year of Birth 1972

What matters to me:

- I am convinced that quantum leaps are possible when seeming contradictions are taken as an opportunity to develop innovative strategies
- The following contradictions have inspired and accompanied me throughout my career:
Scientific ability to analyse and social scientific ability to act; Nordic rationality and Mediterranean empathy; scientific thinking in models and practical development of solutions.

Education

- University degree (diploma) in mathematics, Hamburg
- Training as Process Consultant and Coach, Hamburg
- Post-graduate studies: Ergonomics and Organisational Sciences, Helsinki
Promotion in 2008 (Thesis: New Forms of Organisational Consulting)
